

WITH HYPOPHOSPHITES

7% ALCOHOL

For centuries the value of Olive Oil, as a food and as a laxative, has never been questioned. Combined with Hypophosphites and Oxidaze, we have an ideal preparation, agreeable to the taste, easily digested, combining in one, the known food value of the best table Olive Oil, the tonic properties of the hypophosphites and the germicidal and antiseptic properties of the Oxidaze Tablets.

OXIDAZE EMULSION OF OLIVE OIL is a valuable preparation for those who are looking for health. Can be readily taken by many who cannot take Cod Liver Oil in any of its forms.

OXIDAZE EMULSION OF OLIVE OIL is a highly concentrated food, a very valuable article of diet.

The body wastes away when deprived of fat, and pure vegetable or fruit fat is a desirable form of supply.

OXIDAZE EMULSION OF OLIVE OIL is a valuable aid to digestion and is a reliable tissue builder, blood and nerve renovator.

OXIDAZE EMULSION OF OLIVE OIL is a food and is perfectly adapted to the needs of the body in many directions. Through its nourishing and tissue building qualities it protects the nerves from depletion and wear. It builds up the body SO THAT IT ARRESTS AND WARDS OFF DISEASE.

Always use OXIDAZE EMULSIONS in PREFERENCE to any other. Ask your Druggist for OXIDAZE EMULSIONS and accept no other.

PRICE, \$1.00 PER BOTTLE

WITH HYPOPHOSPHITES

7% ALCOHOL

For fifty years the medical profession has recommended and used Cod Liver Oil in chronic wasting diseases, such as Tuberculosis, Scrofula, Rickets, and Malnutrition. It is an easily digested food, and undoubtedly causes an increase in body weight. Eminent medical authorities, recognized as being conservative and accurate in their statements, give as characteristics of Cod Liver Oil that it increases bodily temperature, increases red corpuscles, relieves anaemia, rheumatism, sciatica, lumbago, neuralgia, scrofula and catarrhal conditions. It is more easily digested and assimilated than other fats.

While the principal function of Cod Liver Oil is dependent upon its food value, OXIDAZE EMULSION of Cod Liver Oil with Hypophosphites contains important and effective medicinal properties that fully meet the complex pathological conditions that obtain in the above mentioned diseases. This cannot as truly be said of all other Cod Liver Oil Emulsions. This OXIDAZE EMULSION can be borne by the stomach where the ordinary Cod Liver Oil Emulsion is rejected. In OXIDAZE EMULSION the unpleasant taste of Cod Liver Oil is largely covered by the Oxidaze it contains.

OXIDAZE is composed of several different vegetable ingredients of well known remedial value. OXIDAZE EMULSION contains no opium or any of its derivatives. It contains no chloroform, no cocaine, no narcotic or other drug that produces the "drug habit."

OXIDAZE EMULSION represents the valuable constituents and properties of Emulsion of Cod Liver Oil and Hypophosphites with the Added Value of the Oxidaze Tablet Medicament used in as large proportion as is consistent with the dosage.

It is absolutely pure and will give you the most satisfactory results.

It is carefully prepared by most able and reliable chemists and pharmacists. It is safe as a family remedy.

Always use OXIDAZE EMULSION in PREFERENCE to any other Cod Liver Oil Emulsion. Ask your Druggist for OXIDAZE EMULSION and accept no other.
